

A TOOL IN THE HANDS OF GOD

DAVID YANTIS

I of - fer of my - self the la - bor of my hands, that

they might be used to serve my fel - low man. Through toil that's

born of love in serv - ice let me be a tool in the

hands of God, to forge His will through me, His will through me.

REFRAIN

I know that God's at work for good in all things. The pow'r of

love He brings to bear is ev - 'ry - where. I of - fer

of my - self the things that I pos - sess, though small in the

eyes of some, these treas - ures I con - fess. But use them, I

will for Him, in serv - ice let me be a tool in the

hands of God, to forge His will through me, His will through me.
